TYPE STYLE USED:

COMMENTS:

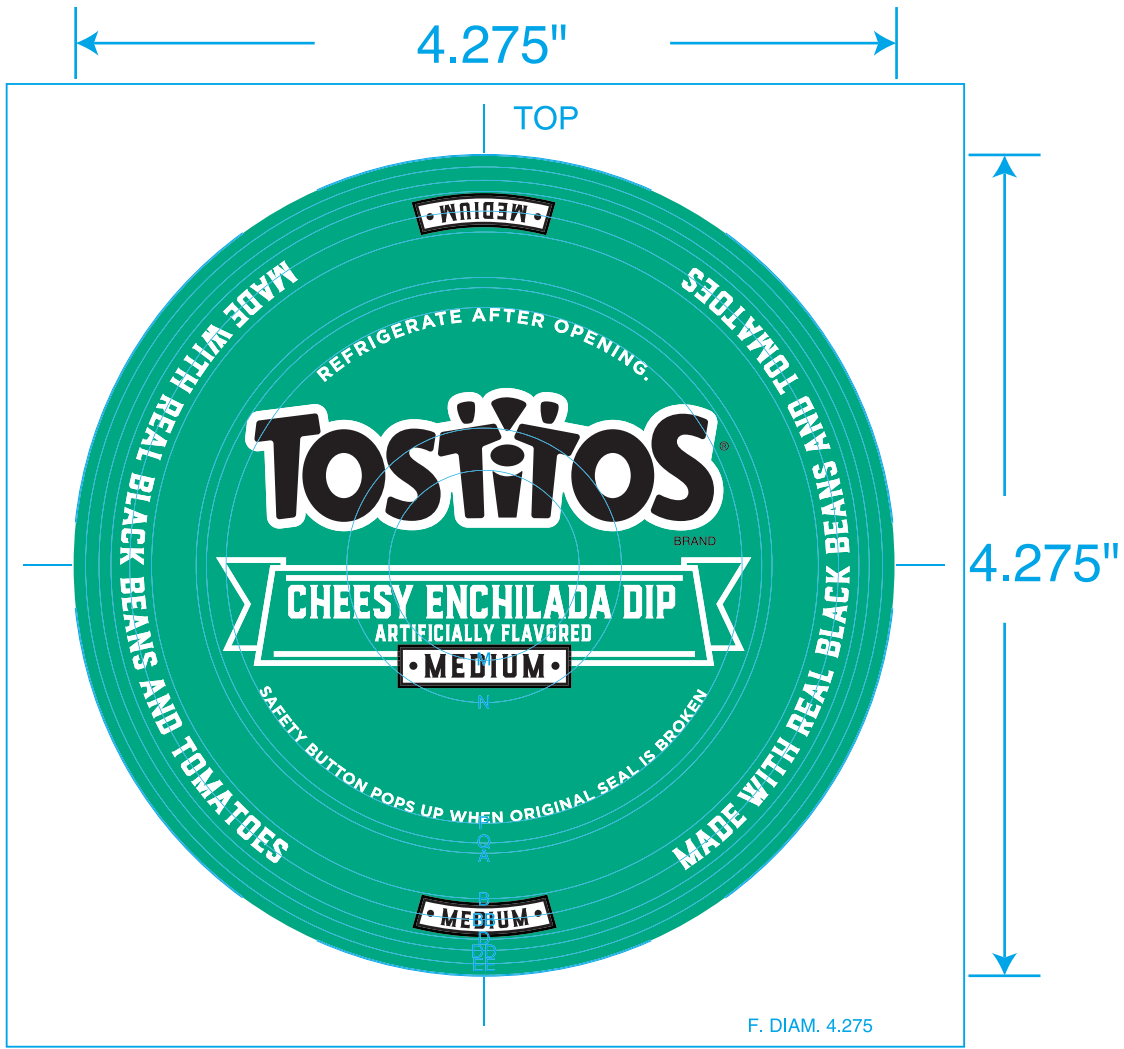

#### PRINTING RECOMMENDATIONS:

Face copy should not extend any further than the "P" position. For minimal distortion on a button closer, try to stay within the "P" position. If copy falls between the "P" and "Q" positions, distortion can occur. We do not recommend printing between the "Q" and "A" positions.

Skirt copy should fall between the "B" and "D" positions.

Printing of copy cannot fall past position "D". If overall solid color background printing must be done past position "D", use "Full Tone" printing to position "DD" and then use a "Half Tone" or 50% screen to print from position "DD" to "EE".

No more than one solid color can print past position "D".
